14.	G	_____	28.	H	_____			

Number Correct (Raw Score) for:

Science Test (40 questions) _____

STEP 4. On each of the four tests, the total number of correct responses yields a raw score. Use the conversion table on the following page to convert your raw scores to scale scores. For each of the four tests, locate and circle your raw score or the range of raw scores that includes it in the conversion table. Then, read across to either outside column of the table and circle the scale score that corresponds to that raw score. As you determine your scale scores, enter them in the blanks provided below. The highest possible scale score for each test is 36. The lowest possible scale score for any of the four tests is 1.

	Your Scale Scores
English	_____
Mathematics	_____
Reading	_____
Science	_____
Sum of Scores	_____

STEP 5. Compute your Composite score by averaging the four scale scores. To do this, add your four scale scores and divide the sum by 4. If the resulting number ends in a fraction, round it off to the nearest whole number. (Round down any fraction less than one-half; round up any fraction that is one-half or more.) Enter this number in the appropriate blank below. This is your Composite score. The highest possible Composite score is 36. The lowest possible Composite score is 1.

Your Scale Scores

English

Mathematics

Reading

Science

Sum of Scores

Composite Score (sum \div 4)

Scale Score Conversion Table: Practice Test 3

Scale Score	Raw Score				Scale Score
	English	Mathematics	Reading	Science	
36	75	58-60	40	39-40	36
35	73-74	56-57	-	38	35
34	72	54-55	39	-	34
33	71	52-53	38	37	33
32	70	50-51	37	36	32
31	69	49	-	35	31
30	68	47-48	36	34	30
29	66-67	46	35	33	29
28	65	44-45	34	32	28
27	63-64	41-43	33	31	27
26	61-62	39-40	32	30	26
25	58-60	37-38	31	28-29	25
24	56-57	35-36	30	26-27	24
23	53-55	33-34	29	24-25	23
22	50-52	31-32	27-28	23	22
21	47-49	30	26	21-22	21
20	44-46	28-29	24-25	18-20	20
19	42-43	26-27	22-23	16-17	19
18	40-41	24-25	21	15	18
17	37-39	21-23	19-20	13-14	17
16	35-36	17-20	17-18	12	16
15	32-34	14-16	15-16	11	15
14	30-31	10-13	13-14	10	14
13	28-29	8-9	11-12	9	13
12	26-27	7	9-10	8	12
11	24-25	5-6	8	7	11
10	22-23	4	6-7	6	10
9	19-21	-	-	5	9
8	16-18	3	5	4	8
7	13-15	-	4	-	7
6	11-12	2	3	3	6
5	8-10	-	-	2	5
4	6-7	1	2	-	4
3	4-5	-	-	1	3
2	3	-	1	-	2
1	0-2	0	0	0	1

STEP 6. Use the table on [page 759](#) to determine your estimated percentile ranks (percent at or below) for each of your scale scores. In the far left column of the table, circle your scale score for the English test (from [page 766](#)). Then read across to the percentile rank column for that test; circle or put a checkmark beside the corresponding percentile rank. Use the same procedure for the other three tests (from [page 766](#)). Using the right-hand column of scale scores for your science test and Composite scores may be easier. As you mark your percentile ranks, enter them in the blanks provided. You may also find it helpful to compare your performance with the national mean (average) score for each of the four tests and the Composite as shown at the bottom of the table.

Scoring Your Practice Writing Test 3 Essay

To score your practice writing test essay, follow these steps:

STEP 1. Use the guidelines from the writing test analytic rubric in [chapter 3](#) to score your essay. Because many essays do not fit the exact description at each score point, read each description and try to determine which paragraph in the rubric best describes most of the characteristics of your essay.

STEP 2. Because your writing test domain scores are the sum of two readers' ratings of your essay, multiply your own 1–6 rating from step 1 by 2. Or, have both you and someone else read and score your practice essay, add those ratings together, and record the total in the Domain Score column in step 3.

STEP 3. Enter your writing test domain scores in the following box:

			Domain Score
Ideas and Analysis	_____	x 2 =	_____
Development and Support	_____	x 2 =	_____
Organization	_____	x 2 =	_____
Language Use and Conventions	_____	x 2 =	_____

STEP 4. Enter the sum of the second-column scores here _____.

STEP 5. Divide sum by 4[†] (range 2–12). This is your Writing Subject score.

[†] Round value to the nearest whole number. Round down any fraction less than one-half; round up any fraction that is one-half or more.

STEP 6. Use the table on [page 762](#) to determine your estimated percentile rank (percent at or below) for your writing subject score.

Scoring Practice Test 4

Scoring the Multiple-Choice Tests

To score each of your multiple-choice practice tests, starting with the English test, follow these six steps:

STEP 1. Write a “1” in the blank for each question that you answered correctly. An example is provided in the following box:
